Summary

QA Engineer with 3 months of hands-on internship experience in Manual Testing, AI Automation Testing, and Software Quality Assurance. Skilled in test case design, defect tracking, regression, API testing, and validating AI-driven web applications. Familiar with SDLC, STLC, Agile methodologies, Python, Playwright, SQL, and AI application testing.

Technical Skills

Programming Languages: Python
Software Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Test Case Writing, Test Scenario Writing, Bug Reporting, Bug Life Cycle, SDLC, STLC
Automation: Selenium, Playwright, PyTest, API Automation.
AI Testing: Prompt Testing, LLM Testing, AI Response Validation, Hallucation Testing, Bias Testing, AI Output Testing, AI Regression Testing, AI Model Evaluation.
Databases: MySQL, SQL
Tools and Platforms: Jira, Postman, GitHub, VS Code, PyCharm, Jupyter Notebook, .
Core Concepts: Defect Tracking, Requirement Analysis, Test Execution, Agile Methodology

Professional Experience

QA Engineer Intern **December 2025 – March 2026**
Trinity Mobile Pvt. Ltd., Noida

- Performed manual and AI automation testing for web applications to ensure quality and functionality.
- Designed test cases and automation scripts using Python and Playwright.
- Executed functional, regression, smoke, sanity, and API testing across application modules.
- Reported, tracked, and verified defects while collaborating with developers for timely resolution.
- Validated REST APIs using Postman, verified SQL data, and worked in Agile/Scrum environments.

Projects

GenAI Test Automation Platform *AI Automation Testing, Python & Playwright, REST API Testing*

- Built an AI-powered test automation framework using LLMs for automated test case generation..
- Automated web and REST API testing with AI-driven validation to improve execution efficiency.
- Built an interactive dashboard for test execution reports and intelligent test result analysis.

Autonomous Document Agent *Python, FastAPI, Streamlit, Generative AI*

- Built an AI autonomous agent using FastAPI and Gemini for automated workflow execution.
- Implemented automated planning, document generation, and self-review to produce accurate business documents with AI assistance.
- Built an interactive Streamlit interface with Microsoft Word (.docx) export for seamless document creation and delivery.

Education

Master of Computer Applications, Computer Science **2025**
Institute of Management Studies, Noida CGPA: 7.8/10

Bachelor of Science, Mathematics Honours **2023**
Shaheed Nandkumar Patel Vishwavidyalaya, Raigarh Marks: 1312/1800

Certifications

- DigiSaksham Python Fundamentals Coursework
- Data Science Certificate from Reliance Foundation
