Experience

Denama Enterprises Pvt. Ltd. Sep 2025 – Present

Software Developer Intern

- Developed and maintained **RESTful APIs** using **FastAPI**, ensuring high performance and scalability for backend services.
- Implemented secure **authentication & authorization** using **JWT**, **bcrypt**, and **role-based access control (RBAC)** for user management.
- Designed and integrated **PostgreSQL database schemas**, optimizing queries for efficient data storage and retrieval.
- Collaborated with frontend team to integrate **APIs** and ensure seamless data flow between client and server.
- Followed **clean code practices** and **Git version control**, contributing to a structured and maintainable codebase.

Projects

SchoolPlus | *FastAPI, PostgreSQL, Next.js, Tailwind CSS* *Ongoing*

- Developed a full-stack web application with a scalable backend using **FastAPI** and a responsive frontend using Next.js.
- Implemented secure authentication and authorization using JWT-based access and refresh tokens.
- Designed and validated multiple data models using Pydantic schemas for robust API request/response handling.
- Integrated PostgreSQL database with optimized schema design and efficient data handling.
- Built a role-based **Admin Panel** with modern UI using Tailwind CSS for managing users and system data.
- Ensured modular code structure, API scalability, and maintainability following best practices.

Authentication System | *Backend Developer*

- Developed secure authentication system using **FastAPI** with **login and signup REST APIs**.
- Implemented **JWT-based authentication** with **access and refresh tokens** for secure session management.
- Designed **PostgreSQL database schemas and models**, ensuring efficient data handling and scalability.
- Applied **Pydantic validation** for request and response handling.
- Integrated **email verification workflow** by sending verification links after successful registration.

InnoServe | *Fullstack Developer* | Link

- Built a **full-stack web application** with **REST APIs** for user and contact management.
- Implemented **authentication & authorization** using **JWT tokens**, **bcrypt**, and **role-based access control (RBAC)**.
- Designed dynamic UI using **EJS templating** and **Bootstrap** for responsive frontend.
- Developed an **admin panel** to manage users and control access permissions.
- Deployed application on **Render** with proper environment and database integration.

Technical Skills

Languages: Python , JavaScript(ES6+) , TypeScript
Frameworks/Libraries: React.js, Redux Toolkit , Next.js , FastAPI , Material-UI , Tailwind
Databases: Postgresql , MySQL , MongoDB(Familiar)
Developer Tools: Git, Github, VS Code, Visual Studio, IntelliJ, Eclipse

Education

R.D Engineering College Ghaziabad

Bachelor of Technology in Computer Science *Aug. 2022 – Mayl 2026*

TRM Public School Modinagar

Class XII *Aug. 2021 – May 2022*
